Object-Oriented Programming with Java: Core Concepts

Classes, Interfaces, Generics, and Collections Framework

Author: Neha Deshmukh (B.Tech CSE) | ShelfShare Academic Resource

---

1. Java Platform: JVM, JRE, JDK architecture.
2. Four Pillars of OOP: Abstraction, Encapsulation, Inheritance, Polymorphism.
3. Abstract Classes vs Interfaces in Java 8+.
4. Java Collections: ArrayList, LinkedList, HashMap, HashSet, PriorityQueue.
5. Multithreading: Thread lifecycle, Runnable interface, Synchronization.
6. Java Stream API and Lambda Expressions.
